ACCOUNTING FOR PUPILS

Registration

New students must register in the principal's office. A child must be enrolled by the child's parent, guardian, or other person with legal control under a court order. The District shall record the name, address, and date of birth of the person enrolling the child. Education Code 25.002(f)

Students entering Bishop Elementary for the first time are required to have a birth certificate, his/her immunization record, social security number, STAAR results (if applicable), and show proof of residency. If the required documents and other records are not furnished to the District within 30 days after enrollment, the District shall notify the police department of the city or the sheriff's department of the county in which the District is located and request a determination of whether the child has been reported missing.

The District has three campuses at the elementary level: Petronila Elementary, Bishop Elementary, and Bishop Primary. For the grades that overlap among the three campuses, if a new student's enrollment on any one of the campuses causes a class in kindergarten through grade 4 to exceed 22 students, that student shall be required to enroll in the appropriate grade at one of the other two campuses where space is available. The student shall remain at that campus for the remainder of the school year but may re-enroll at the campus in the student's residence attendance area for the following year as long as space is available. FC (LOCAL)

Enrollment

Punctuality and good attendance are most important.

In the Elementary grades, direct instruction is very important. Your child(ren) cannot receive direct instruction after being absent; therefore, it is crucial for students to attend school on a regular basis.

Every child in the state who is six years of age, or who has previously been enrolled in first grade, and who has not completed the academic year in which his 21st birthday occurred shall be required to attend the public schools.

Students shall be in attendance at public schools in accordance with requirements of the Compulsory School Attendance Law and for the number of full-length days prescribed by law.

Withdrawals

A parent or guardian wishing to withdraw a minor student shall present a signed request stating the reason for the withdrawal. A student who is 18 or older may request withdrawal without a parent's or guardian's signature.

Withdrawals will be made in the office. Students must turn in all textbooks, library books, and cafeteria charges must be paid before records may be released.

Perfect Attendance: Lillion E. Luehrs Scholarship Fund Perfect Attendance Certificate

Perfect attendance shall be guided by each campus rules and regulations and verified by the Bishop Consolidated Independent School District Attendance Clerk.

1. For each and every year, all students attending Bishop Consolidated Independent School District in Grade 1 through Grade 12, inclusive, with a perfect attendance for that year shall be recognized and receive a Lillion E Luehrs Scholarship Fund Perfect Attendance Certificate.
2. For every student who has attended and completed Grade 1 through Grade 5 in the Bishop Consolidated Independent School District uninterrupted and with a perfect attendance, that student shall receive a \$100 U.S. Savings Bond and a plaque.
3. For every student who has attended and completed Grade 6 through Grade 8, in the Bishop Consolidated Independent School District uninterrupted and with a perfect attendance, that student shall receive a \$100 U.S. Savings Bond and a plaque.
4. For every student who has attended and completed Grade 9 through Grade 12 in the Bishop Consolidated Independent School District uninterrupted and with a perfect attendance, that student shall receive a \$100 U.S. Savings Bond and a plaque.
5. For every student who has attended and completed Grade 1 through Grade 8 in the Bishop Consolidated Independent School District uninterrupted and with perfect attendance shall receive a \$500 U.S. Savings

Bond and a plaque.

6. For every student who has attended and completed Grade 1 through Grade 12 in the Bishop Consolidated Independent School District uninterrupted and with a perfect attendance, that student shall receive a \$1000 scholarship (Lillion E. Luehrs Perfect Attendance Scholarship) each year for four years to a college or university and degree of his/her choice. There is to be no grade requirement. This student shall also receive a plaque. This scholarship shall be paid directly to the college or university.

Tardies

It is of utmost importance that your child(ren) arrives at school on time. Our day begins at 7:30 a.m.

A student is tardy if he/she is not in his/her homeroom by 7:35 a.m. **If a student accumulates 3 tardies, he/she will be assigned to lunch detention.**

Parents will receive notification if their child(ren) is/are habitually tardy. **Proper authorities will also be notified if the problem is not corrected.**

Absences/Attendance Policy/Attendance Committee

A student who has poor attendance in a class may receive a failing grade under the following condition, even though a student may otherwise be passing the course academically:

1. The student has a total of 16 absences (unexcused, trancies, or excused) for the year. The only excused absence which shall not count in the total absence is an absence due to participating in school-sponsored events during the school day.

The principal, after consulting with the teacher and/or the parent/guardian, may use discretion in granting an exception to the regulations for extenuating circumstances. In certain cases, a statement from a doctor may be required.

After a student is absent, the parent needs to send a written note indicating the reason for absence. **Excuses must be turned in within 3 days of their absence. If an excuse is not received, the absence will be considered an unexcused absence.**

The student is to bring this note to his/her teacher.

Attendance Committee

The attendance committee established by the school board and composed of the principal and/or designee, counselor (optional with building principal), teacher, and a diagnostician (optional with building principal), shall determine whether to award credit.

Unexcused Absence

Unexcused Absences are given for reasons other than truancy which the principal's office determines as unexcused. (Most common types: out of town, needed at home, business errand or trip, work.) The grade for make-up work after an unexcused absence shall be no higher than 70. EIAB (LOCAL)

Truancy

Chapter 37 School Discipline and the law.

Truancy

For truancy violations, a juvenile court always has original jurisdiction under the Family Code. Once jurisdiction is waived to a Justice of the Peace or Municipal Court, truancy becomes "failure to attend" under Chapter 45 code of Criminal Procedure. Under TEC 25.0951, a court is required to dismiss a complaint regarding absences if the school fails to file the complaint within ten school days of the student's tenth absence.

8. Truancy (failure to attend school)—Parent contributing to truancy—(Action reason Code 42) TEC 25.093. Parent Contributing to Truancy(a) If a warning is issued as required by Section 25.095(a), the parent with criminal negligence fails to require the child to attend school as required by law, and the child has absences for the amount of time specified under section 25.094, the parent commits an offense. **Truancy (failure to attend school)—Student with at least 3 unexcused absences** –(Action Reason Code 43)

TEC 25.094. Failure to Attend School(a) An individual commits an offense if the individual: (1) is required to attend school under Section 25.085; and (2) fails to attend school on 10 or more days or parts of days within a six-month period in the same school year or on three or more days or parts of days within a four-week period.

10. Truancy (failure to attend school) – Student with 10 unexcused absences –(Action Reason Code 44)
TEC 25.094. Failure to Attend School.

(a) An individual commits an offense if the individual: (1) is required to attend school under Section 25.085; and (2) fails to attend school on 10 or more days or parts of days within a six-month period in the same school year or on three or more days or parts of days within a four-week period.

Leaving School

If it is necessary for your child to leave school during the day, the parent/guardian must fill out the sign-out form in the office.

Truancy is unlawful absence from school. The parent or legal guardian is responsible for ensuring that all children who are subject to the compulsory attendance law and who are not lawfully excused from attendance do attend school.

When a student is truant, the school officials shall provide the student's parent or guardian with proper notice of the student's unlawful absence and request the parent or legal guardian to return the student to school. A parent or guardian who intentionally, knowingly, recklessly, or with criminal negligence fails to require the child to attend school, as required by law, shall be subject to punishment as provided by law, unless he/she can prove inability to compel the child to attend school. In that case, the child shall be subject to action by the juvenile court.

BUS TRANSPORTATION

School bus transportation is provided to and from Bishop Elementary for those students living outside a 2-mile radius of the elementary campus.

BUS RULES AND REGULATIONS/STUDENT SAFETY

In the interest of greater safety for your child traveling to and from school we ask that you read the following bus safety rules and regulations to your child/children.

School age youngsters must depend largely upon common sense about safety. Developing that safety sense is a parental responsibility as well as a school responsibility and any assistance that you, as a parent/guardian, can give will be greatly appreciated.

Please help us get your child to school and back home again safely by insisting that your child obey these rules and the rules posted in each bus.

1. Look both ways before crossing the road to get on or off the bus.
2. Do not depend on cars to stop for the bus--many cars do not stop.
3. Be on time at the designated bus stop, stand still and stay off the roadway at all times while waiting for the bus.
4. Do not struggle or scuffle over who is going to be the first one on or off the bus.
5. Wait until the bus has come to a complete stop before attempting to enter or leave it.
6. Cooperate with the bus driver and sponsors.
7. Be courteous and use no profane language.
8. Sit in your seat at all times after boarding the bus and avoid any play or scuffle.
9. Keep your hands to yourself.
10. Be reasonably quiet, refrain from loud talking and other behaviors which may interfere with the proper performance and duty of the driver.
11. Assist in keeping the bus sanitary and clean.
12. Avoid eating or drinking on the bus (without the consent of sponsor or driver).
13. Avoid the use of tobacco.
14. Refrain from throwing any item outside of the bus at any time.

The bus driver's main responsibility is driving the bus safely. Any time that he/she is distracted from his/her driving by a disturbance on the bus, a dangerous situation can develop. The lives of all children on the bus may depend on one child's behavior.

Students are expected to conduct themselves on the bus in the same manner as they are expected to act in the classroom. Students may be assigned seats by the driver if necessary. **Students who cause problems on the bus and who refuse to follow bus riding regulations will receive a bus referral and will lose bus riding privileges after 2nd referral.**

Shuttle Bus

Students in grades 3, 4, 5, living west of business 77, may ride the shuttle bus from the primary campus to the elementary campus. This bus leaves at approximately 7:05 am. The afternoon bus leaves at approximately 3:40 pm.

CARE OF SCHOOL PROPERTY

Students are responsible for the proper care of all books, supplies, and furniture supplied by the school.

Students who damage or who cause property to be damaged will be responsible for such damage that might occur. The parent will incur a monetary fine.

Students caught writing obscene words or drawing obscene pictures on school property will receive a discipline referral. Parents will be mailed a copy of the referral.

Also see Student Code of Conduct for other consequences.

The school is not liable for the student's personal property that is damaged or stolen.

- (1) Violation of any school policy.

PEST MANAGEMENT INFORMATION

The Structural Pest Control Board (SPCB) was created as the first Texas state agency with the authority to set standards and license pesticide applicators by the 62nd Regular Session of the Legislature under the authority of Article 1356-6 V.T.C.S, (copy of which is attached) and became effective in September, 1971. The purpose of the Act is to carry out the rights and duties of the state, to protect the health and welfare of the citizens, to protect the environment against the misuse of pesticides and to promote more professional standards for the structural pest control industry. The Act was amended during regular sessions of the Legislature in 1975, 1979, 1987, 1989, and 1991. The Sunset Commission review of the SPCB during 1991 resulted in several new legislature mandates and responsibilities, some of which have a direct impact on schools.

Posting Requirements

Notices will be placed on all entrances to campuses where applications will be made at least 48 hours prior to the applications. Each campus principal may also post additional notices where he/she feels it is necessary. The purpose of these notices is to inform parents, students, and staff of the date of the pest control treatments.

A Consumer Information Sheet will be provided upon request. Parents, students, and staff may not enter treated areas for at least 12 hours following the application of pesticides. Parents, students, and staff may not use outside application areas for a least 12 hours following the application.

The following statement is given to each student at the time of registration and is printed in each campus handbook:

"Pesticides are applied periodically at this school or campus. Please contact the person in charge of the pesticide program at your school."

The contact person at Bishop C.I.S.D. is the business manager.

Records

Records will be retained for two years and are available from an employee of the Structural Pest Control Board upon request.

The Integrated Pest Management School Program

The Integrated Pest Management School Program was enacted into law by the 72nd Legislative Session. This program comes under the jurisdiction of the Texas Pest Control Act 135b-6. The provisions of Section 4J are as follows:

- (A) The Structural Pest Control Board shall establish standards for integrated pest management program (IPM) for the use of pesticides, herbicides, and other chemical agents to control pests, rodents, insects, and weeds at school buildings and other facilities of school districts.
- (B) Each school district shall, on or before September 1, 1995, adopt an IPM program that incorporates the standards developed by the board.
- (C) The board shall use an existing advisory committee or create a new advisory committee to assist the board in developing the standards for the IPM program. In developing the standards, the advisory committee shall consult with a person knowledgeable in the area of IPM in schools.
- (D) The board shall include the standards adopted under this section:
 - (1) a requirement that the least toxic methods available to control pests, rodents, insects, and weeds, be used; and
 - (2) a list of products that a school district is allowed to use in its applications.
- (E) The board shall require that a pesticide may be applied to a school building or on grounds only during periods in which students are not expected to be present for normal academic instruction or organized extracurricular activities for at least 12 hours after the application.

The IPM committee has been focusing on the above information and has made significant progress in establishing the IPM program. The initial draft of this document will be presented in the near future. The meetings are held at the Joe C. Thompson Conference on the campus of the University of Texas at Austin. Public hearings on this document were held during the fall and winter of 1993. These hearings were held in Austin, Dallas/Fort Worth, Houston, and West Texas.

The IPM program for schools is a very important issue for the state of Texas and we request your assistance in educating your associations membership. The principal, maintenance staff, teachers, and students will be affected by the IPM program. The more information that is provided to them the better understanding the school districts will have about IPM.

All school districts are required to place the following statement in their student handbook or in student handouts at the start of each school year:

“This school periodically applies pesticides.”

Information concerning these applications may be obtained from Charlie Farek at (361) 584-7039.

Any school personnel that makes application on a routine basis of any pesticides, insecticides or herbicides at a school or on school property must be either a licensed noncommercial applicator or a technician. The Board will be reviewing and setting standards in the near future for the technician category in noncommercial. Technicians must work under direct supervision of the noncommercial certified applicator.

A notification of pest control treatment must be posted at least 48 hours in advance. The purpose of the notice is to

inform employees and faculty that a pest control treatment will be done. Also, a consumer information sheet must be provided to any employee upon request. Students may not re-enter a treated area for at least 12 hours following application. Outside application areas cannot be used by students for 12 hours following treatment. These reentry restrictions apply to normal academic and extracurricular activities.

All pest control use records shall be maintained on the employer's premises for two years. The records must include the name and address of customer (supervisor), name of pesticides or devices used, amounts of pesticides or devices used, percent in solution of pesticides used, purpose for which the pesticides or devices were used (target pest), date pesticides or devices were used (school campus). The records must be made available to an employee of the Structural Pest Control Board upon request.

The Structural Pest Control Board would like to thank you for your support of the Integrated Pest Management program. Please contact our office with any questions or suggestions for the IPM committee. Please call (512) 835-4066 or write the Texas Structural Pest Control Board, 9101 Burnet Road #201, Austin Texas 78758.

The physician's statement must be kept on file by the school nurse, at the school the student attends.

We need an Asthma Action Plan from your Dr. when you bring his/her inhaler to school.

These forms are available in the office of each school nurse.

Communicable Diseases

To protect children from contagious illnesses, students infected with certain diseases are not allowed to come to school while contagious. Parents of a student with a communicable or contagious disease should phone the school nurse or principal so that other students who have been exposed to the disease can be alerted. These diseases include: Amebiasis, Campylobacteriosis, Chicken Pox, Common Cold with Fever, Fifth Disease, Gastroenteritis, viral Giardiasis, Head Lice, Hepatitis, Viral A, Impetigo, Infectious Mononucleosis, Influenza, Measles, Meningitis (bacterial), Mumps, Conjunctivitis, Ringworm of the Scalp, rubella (German Measles) including congenital, Salmonellosis - including Typhoid Fever, Scabies, Shigellosis, Streptococcal Disease, Tuberculosis, Whooping Cough.

Children should be fever free (without medication) for 24 hours before returning to school. Do not medicate your child for nausea, vomiting, or diarrhea and send him/her to school.

HEALTH INFO.

Bacterial Meningitis

State law requires the District to provide the following information:

WHAT IS MENINGITIS?

Meningitis is an inflammation of the covering of the brain and spinal cord. It can be caused by viruses, parasites, fungi, and bacteria. Viral meningitis is most common and the least serious. Bacterial meningitis is the most common form of serious bacterial infection with the potential for serious, long-term complication. It is an uncommon disease, but requires urgent treatment with antibiotics to prevent permanent damage or death.

WHAT ARE THE SYMPTOMS?

Someone with meningitis will become very ill. The illness may develop over one or two days, but it can also rapidly progress in a matter of hours. Not everyone with meningitis will have the same symptoms. Children (over 1 year old) and adults with meningitis may have a severe headache, high temperature, vomiting, sensitivity to bright lights, neck stiffness or joint pains, and drowsiness or confusion. In both children and adults, there may be a rash of tiny, red-purple spots. These can occur anywhere on the body. The diagnosis of bacterial meningitis is based on combination of symptoms and laboratory results.

HOW SERIOUS IS BACTERIAL MENINGITIS?

If it is diagnosed early and treated promptly, the majority of people make a complete recovery. In some cases, it can be fatal or a person may be left with a permanent disability.

HOW IS BACTERIAL MENINGITIS SPREAD?

Fortunately, none of the bacteria that cause meningitis are as contagious as diseases like the common cold or the flu, and they are not spread by casual contact or by simply breathing the air where a person with meningitis has been. The germs live naturally in the back of our noses and throats, but they do not live for long outside the body. They are spread when people exchange saliva (such as by kissing; sharing drinking containers, utensils, or cigarettes).

The germ does not cause meningitis in most people. Instead, most people become carriers of the germ for days, weeks, or even months. The bacteria rarely overcome the body's immune system and cause meningitis or another serious illness.

HOW CAN BACTERIAL MENINGITIS BE PREVENTED?

Do not share food, drinks, utensils, toothbrushes, or cigarettes. Limit the number of persons you kiss.

While there are vaccines for some other strains of bacterial meningitis, they are used only in special circumstances. These include when there is a disease outbreak in a community or for people traveling to a country where there is a high risk of getting the disease. Also, a vaccine is recommended by some groups for the college students, particularly freshmen living in dorms or residence halls. The vaccine is safe and effective (85-90%). It can cause mild side effects, such as redness and pain at the injection site lasting up to two days. Immunity develops within seven to ten days after the vaccine is given and lasts for up to five years.

WHAT SHOULD YOU DO IF YOU THINK YOU OR A FRIEND MIGHT HAVE BACTERIAL MENINGITIS?

You should seek prompt medical attention.

WHERE CAN YOU GET MORE INFORMATION?

Your school nurse, family doctor, and the staff at your local or regional health department office are excellent

sources for information on all communicable diseases. You may also call your local health department or Regional Texas Department of Health office to ask about meningococcal vaccine. Additional information may also be found at the web sites for the Centers for Disease Control and Prevention, <http://www.cdc.gov> and the Texas Department of Health, <http://www.tdh.state.tx.us>

Reye's syndrome

Reye's syndrome is a very serious disease that you should know about. Some people develop Reye's syndrome as they are getting over a viral illness, such as the flu or chicken pox. Reye's syndrome usually affects people from infancy through young adulthood; however, no age group is immune. Although Reye's generally occurs when someone is recovering from a viral illness, it can develop 3 to 5 days after the onset of the illness. Its main targets are the liver and the brain, it is noncontagious, and too often is misdiagnosed as encephalitis, meningitis, diabetes, poisoning, drug overdose or sudden infant death.

Early diagnosis is crucial. An individual should be watched during the next 2 to 3 weeks following a viral illness for these symptoms, usually occurring in this order:

- Relentless or continuous vomiting
- Listlessness (loss of pep and energy with little interest in their environment)
- Drowsiness (excessive sleepiness)
- Personality change (such as irritability, slurred speech, sensitivity to touch)
- Disorientation or confusion (unable to identify whereabouts, family members, or answer questions)
- Combativeness (striking out at those trying to help them)
- Delirium, convulsions, or loss of consciousness.

Reye's syndrome should be suspected in anyone who vomits repeatedly. Phone your doctor immediately if these symptoms develop. Voice your concern about Reye's syndrome. If your physician is unavailable, take the person to an Emergency Room promptly. Two liver function tests (SGOT, SGPT) can be done to determine the possibility of Reye's syndrome. There is a 90% chance of recovery when the syndrome is treated in its earliest stages by physicians and nurses experienced in the treatment of Reye's.

Studies have shown that using aspirin or aspirin-containing medications to treat the symptoms of viral illnesses increases the chance of developing Reye's syndrome. If you or a member of your family has a viral illness, **do not use aspirin or aspirin-containing medications**. In fact, you should consult your physician before you take any drugs to treat the flu or chicken pox, particularly aspirin or anti-nausea medicines. Anti-nausea medicines may mask the symptoms of Reye's syndrome.

The national Reye's Syndrome Foundation (NRSF), the U.S. Surgeon General, and the Food and Drug Administration and the Centers for Disease Control recommend that aspirin and combination products containing aspirin not to be taken by **anyone under 19 years of age during fever-causing illness**. Aspirin is a part of the salicylate family of medicines. Another name for aspirin is acetylsalicylate; some drug labels may use the words acetylsalicylate, acetylsalicylic acid, salicylate, etc., instead of the word aspirin. Currently, there is no conclusive date as to whether research has answered this question; the NRSF recommends that products containing any of these substances not be taken during episodes of viral infections.

The NRSF is a nonprofit, tax-exempt organization with affiliates located in 43 states. The NRSF has pioneered the movement to disseminate knowledge about the disease in an effort to aid in early diagnosis and also provides funds for research into the cause, cure care, treatment, and prevention of Reye's syndrome.

Head Lice

The Law as it relates to Head Lice:

According to Texas Law a child must be sent home from school if live lice are found in their hair. They will be allowed to return to school after one medicated treatment has been given or they bring a note from a physician saying they have been cleared to return to school. When the child returns to school, a head check is not required by law and there is no requirement to report cases of head lice to officials.

Each school district may make additional head lice policy and toughen up this law....and some do. Talk to the school nurse or someone else in charge to find out what the school policy is in your district.

Statute:

What follows is the link to the Texas Code where you can find this law:

Texas Health and Safety Code: Title 2 Chapter 38 – Pediculosis of Minors

How Do You Keep Lice From Coming Back?

- Teach family members to recognize nits and how lice are spread and check everyone's hair periodically.
- If you find lice, follow the recommended treatment closely. It should be reported to the school nurse, who can check close contacts.
- Remind children not to share combs, brushes, hair accessories, headphones, hats, clothing, bedding, coats and so forth.
- Ask the teacher at your child's school if there is a space to keep jackets, hats and other personal items separate for each child. Ask what you can do to help.

What are Head Lice?

- Head lice are tiny gray to brown insects about the size of a sesame seed that live in human hair and must feed on human blood to live.
- They lay tiny white oval-shaped eggs about the size of a knot in a thread, called nits that lice glue to each strand of hair close to the scalp. Although it is hard to see head lice, a person can see the nits if they look closely.
- Nits are most often found in the hair behind the ears and at the back of the head and neck. The first sign of lice is itching of the head which is caused by the bite of the head lice.

How do You Get Head Lice?

- Head lice happen mostly with elementary school-aged children.
- Children get lice from other children through head to head contact during play or sports or nap time and most often in school settings.
- Sometimes sharing combs, hats or school lockers with a louse infested child can spread head lice.
- You can't spread nits, only live lice.
- Head lice do not spread disease.
- Any child can get head lice. It doesn't matter where they live or go to school, boy or girl, black, white, brown. It doesn't mean the child is sick or unclean. It certainly doesn't mean they have bad parents.
- Children get head lice almost as much as the common cold. Millions get it at least once a year.

How Do You Get Rid of Head Lice?

The Texas Department of State Health Services recommends the following treatment for head lice and nits:

1. Use an over the counter FDA – approved shampoo treatment that you find at the drug or grocery store. Follow the directions on the packaging exactly.
2. Remove as many nits as possible with a special nit comb that comes with the head lice treatment.
3. Treat your home at the same time you treat your child. Do the following:
 - Soak combs and brushes in some of the lice shampoo for 1 hour or in very, very hot water for 5-10 minutes.
 - Wash sheets, blankets and other bedding in the hottest setting of water in washing machine.
 - Dry-clean non-washable items or seal these items in plastic bag for 1 week.
 - Vacuum furniture, carpets and mattresses thoroughly.
4. Treat hair for a second time after 7 days (or follow the manufacturer of the lice treatment's instructions) to make sure that you kill any lice that may have hatched from nits that might have been missed during the combing, before they lay eggs.
5. There is no need to cut hair. Lice like to crawl on short hair just as much as long hair and they need the same amount of treatment.

Texas Public School Nutrition Policy

Effective August 1, 2004, all Texas public schools participating in the federal child nutrition programs (National School Lunch Program, School Breakfast Program and the After School Snack Program) must comply with the nutrition policies intended to supplement federal policies defined by the U.S. Department of Agriculture's Food and Nutrition Services.

In March 2004, the Texas Department of Agriculture issued the Texas Public School Nutrition Policy to promote a healthier environment in schools.

Elementary School campuses may not serve or provide access for students to Food of Minimal Nutritional Value (FMNV) and all other forms of candy at any time anywhere on school premises until the end of the last scheduled class. (Some exceptions apply – See B, Page 30)

Effective August 1, 2003, the Child Nutrition Programs of the Texas Department of Agriculture changed the policy concerning Foods of Minimal Nutritional Value (FMNV). This policy specifically outlines certain kinds of foods that can and cannot be made available to students. The update has made guidelines much stricter. These restricted foods can no longer be made available to any elementary student during the school day. As a parent, you are allowed to send any of these foods with your child ONLY. Please refrain from bringing food to any other classmates. If you have any questions please call the Food Service Director at Bishop CISD, 361-584-3591 x226.

Foods of Minimal Nutritional Value refers to the four categories of foods and beverages that are restricted by the U.S. Department of Agriculture under the child nutrition programs.

A. Restricted Foods

Foods and beverages that are restricted from sale to students are classified in the following four categories:

1. **Soda Water:** Any carbonated beverage. No products shall be excluded from this definition because it contains discrete nutrients added to the food such as vitamins, minerals and protein.
2. **Water Ices:** Any frozen, sweetened water such as "...sicles" and flavored ice with the exception of products that contain fruit or fruit juice.
3. **Chewing Gum:** Any flavored products from natural or synthetic gums and other ingredients that form an insoluble mass for chewing.
4. **Certain Candies:** Any processed foods made predominantly from sweeteners or artificial sweeteners with a variety of minor ingredients that characterize the following types:
 - a) **Hard Candy:** A product made predominantly from sugar (sucrose) and corn syrup that may be flavored and colored, and is characterized by a hard, brittle texture. Includes such items as sour balls, lollipops, fruit balls, candy sticks, starlight mints, after dinner mints, jaw breakers, sugar wafers, rock candy, cinnamon candies, breath mints and, cough drops.
 - b) **Jellies and Gums:** A mixture of carbohydrates that are combined to form a stable gelatinous system of jellylike character and are generally flavored and colored, and include gum drops, jelly beans, jellied, and fruit-flavored slices.
 - c) **Marshmallow Candies:** An aerated confection composed of sugar, corn syrup, invert sugar, 20 percent water, and gelatin or egg white flavors and colors may be added.
 - d) **Fondant:** A product consisting of microscopic-sized sugar crystals that are separated by a thin film of sugar and/or invert sugar in solution such as candy corn or soft mints.
 - e) **Licorice:** A product made predominantly from sugar and corn syrup that is flavored with an extract made from the licorice root.
 - f) **Spun Candy:** A product that is made from sugar that has been boiled at high temperature and spun at a high speed in a special machine.
 - g) **Candy coated popcorn:** Popcorn that is coated with a mixture made from sugar and corn syrup.

Note: USDA has approved exceptions for certain products included in the above categories. See TDA, Food and Nutrition Division, Administrators Reference Manual for the current list of these exemptions.

B. FMNV and Policy Exemptions

1. **School Nurse:** This policy does not apply to school nurses using FMNV's during the the course of providing health care to individual students.
2. **Accommodating Students with Special Needs:** Special Needs Students whose Individualized Education Program (IEP) plan indicates the use of an FMNV or candy for behavior modification (or other suitable need) may be given FMNV or candy items.
3. **School Events:** Students may be given FMNV, candy items or other restricted foods during the school day for up to three different events each school year to be determined by campus. The exempted events must be approved by a school official. During these events, FMNV may not be given during meal times in the areas where school meals are being served or consumed, and regular meal service (breakfast and lunch) must continue to be available to all students in accordance with federal regulations.
4. **Test Days:** Schools and parents may provide one additional nutritious snack per day for students taking the state mandated tests. The snack must comply with the fat and sugar limits of the Public School Nutrition Policy and may not contain any foods of minimal nutritional value or consist of candy, chips or dessert type items (cookies, cakes, cupcakes, puffing, ice cream or frozen desserts, etc.). Please refer to the attached revised suggestions for nutritious snacks.
5. **Instructional Use of Food in Classroom:** For instructional purposes, teachers may use foods as long as the food items are not considered FMNV or candy. Students may consume food prepared in class for instructional purposes. However, this should be on an occasional basis, and food may not be provided or sold to other students or classes. Food provided for students as part of a class or school cultural heritage event for instructional or enrichment purposes would be exempt from the policy. However, FMNV may not be served during meal periods in the areas where school meals are being served or consumed, and regular meal service (breakfast and lunch) must continue to be available to all students.
6. **Field Trips:** School-approved field trips are exempt from the nutrition policy. A school official must approve the dates and purposes of the field trips in advance.
7. **Athletic, UIL, Band and Other Competitions:** The nutrition policy does not apply to students who leave campus to travel to athletic, UIL, band or other competitions. The school day is considered to have ended for these students. School activities, athletic functions, etc. that occur after the normal school day are not covered by the policy.

- C. This policy does not restrict what parents may provide for their own child's lunch or snacks. Parents may provide FMNV or candy items for their own child's consumption, **BUT THEY MAY NOT PROVIDE RESTRICTED ITEMS TO OTHER CHILDREN AT SCHOOL.** A school may adopt a more restrictive rule, however, as local policy.

Aiding Students Who Have Learning Difficulties or Who Need Special Education or Section 504 Services

For those students who are having difficulty in the regular classroom, all school districts and open enrollment charter schools must consider tutorial, compensatory, and other academic or behavior support services that are available to all students, including a process based on Response to Intervention (RtI). The implementation of RtI has the potential to have a positive impact on the ability of districts and charter schools to meet the needs of all struggling students.

If a student is experiencing learning difficulties, his or her parent may contact the individual(s) listed below to learn about the school's overall general education referral or screening system for support services. This system links students to a variety of support options, including making a referral for a special education evaluation or for a Section 504 evaluation to determine if the student needs specific aids, accommodations, or services. A parent may request an evaluation for special education or Section 504 services at any time.

Special Education Referrals:

If a parent makes a written request for an initial evaluation for special education services to the director of special education services or an administrative employee of the school district or open enrollment charter school, the district or charter school must respond no later than 15 school days after receiving the request. At that time, the district or charter school must give the parent a prior written notice of whether it agrees to or refuses to evaluate the student, along with a copy of the Notice of Procedural Safeguards. If the school district or charter school agrees to evaluate the student, it must also give the parent the opportunity to give written consent for the evaluation.

Please note that a request for a special education evaluation may be made verbally and does not need to be in writing. Districts and charter schools must still comply with all federal prior written notice and procedural safeguard requirements and the requirements for identifying, locating, and evaluating children who are suspected of being a child with a disability and in need of special education. However, a verbal request does not require the district or charter school to respond within the 15-school-day timeline.

If the district or charter school decides to evaluate the student, it must complete the student's initial evaluation and evaluation report no later than 45 school days from the day it receives a parent's written consent to evaluate the student. However, if the student is absent from school during the evaluation period for three or more school days, the evaluation period will be extended by the number of school days equal to the number of school days that the student is absent.

There is an exception to the 45-school-day timeline. If a district or charter school receives a parent's consent for the initial evaluation at least 35 but less than 45 school days before the last instructional day of the school year, it must complete the written report and provide a copy of the report to the parent by June 30 of that year. However, if the student is absent from school for three or more days during the evaluation period, the June 30th due date no longer applies. Instead, the general timeline of 45 school days plus extensions for absences of three or more days will apply.

Upon completing the evaluation, the district or charter school must give the parent a copy of the evaluation report at no cost.

Additional information regarding special education is available from the district or charter school in a companion document titled Parent's Guide to the Admission, Review, and Dismissal Process.

Each school district or charter school must have standards and procedures in place for the evaluation and placement of students in the district's or charter school's Section 504 program. Districts and charter schools must also implement a system of procedural safeguards that includes notice, an opportunity for a parent or guardian to examine relevant records, an impartial hearing with an opportunity for participation by the parent or guardian and representation by counsel, and a review procedure.

Cómo ayudar a aquellos estudiantes que tienen dificultades de aprendizaje o precisan servicios de educación especial o de la Sección 504

Para aquellos estudiantes que tienen dificultades en el salón de clases normal, todos los distritos escolares y las escuelas autónomas de inscripción abierta deben contemplar servicios de tutoría y compensatorios, y otros servicios de apoyo académico o conductual que estén disponibles para todos los estudiantes, incluido un proceso basado en la Respuesta a la Intervención (RtI). La implementación de la RtI tiene el potencial de impactar positivamente en la capacidad de los distritos y escuelas autónomas de satisfacer las necesidades de todos los estudiantes con problemas.

Si un estudiante está experimentando dificultades de aprendizaje, sus padres pueden comunicarse con la(s) persona(s) mencionada(s) más abajo para obtener información sobre el sistema general de remisión o control de la educación general de la escuela para los servicios de apoyo. Dicho sistema vincula a los estudiantes con una variedad de opciones de apoyo, entre las que se encuentra la remisión para que se realice una evaluación de educación especial o una evaluación de la Sección 504 con el fin de determinar si el estudiante necesita asistencia, adaptaciones o servicios específicos. Los padres pueden pedir una evaluación para los servicios de educación especial o de la Sección 504 en cualquier momento.

Remisiones de educación especial:

Si los padres solicitan, por escrito, al director de servicios de educación especial o a un empleado administrativo del distrito escolar o de la escuela autónoma de inscripción abierta que se realice una evaluación inicial para recibir servicios de educación especial, el distrito o la escuela autónoma deben responder dentro de los 15 días lectivos después de haber recibido la solicitud. En ese momento, el distrito o la escuela autónoma deben entregar a los padres notificación previa por escrito respecto de si están de acuerdo o no en evaluar al estudiante, además de enviarles una copia de la *Notificación de salvaguardas procesales*. Si el distrito escolar o la escuela autónoma están de acuerdo en evaluar al estudiante, también deben darles a los padres la oportunidad de prestar su consentimiento por escrito para la evaluación.

Por favor tenga en cuenta que una solicitud para una evaluación de educación especial puede hacerse verbalmente y no necesita hacerse por escrito. Los distritos y escuelas “chárter” deben seguir cumpliendo con todas las notificaciones previas por escrito y los requisitos sobre las salvaguardas procesales de la ley federal para identificar, localizar y evaluar a los niños que se intuya puedan ser niños con alguna discapacidad y que necesite educación especial. Sin embargo, una petición verbal no requiere que el distrito o la escuela “chárter” respondan dentro del periodo establecido de los 15 días escolares.

Si el distrito o la escuela autónoma deciden evaluar al estudiante, deben completar la evaluación inicial y el informe de la evaluación dentro de los 45 días lectivos posteriores al día en que reciban el consentimiento por escrito de los padres para evaluar al estudiante. Sin embargo, si el estudiante se ausenta de la escuela por tres días lectivos o más durante el período de evaluación, dicho período se extenderá la misma cantidad de días lectivos que el estudiante haya faltado.

Existe una excepción al plazo de 45 días lectivos. Si un distrito o una escuela autónoma reciben el consentimiento de los padres para la evaluación inicial entre los 35 y 45 días lectivos previos al último día de clases del año, deben completar el informe escrito y proporcionarles una copia del mismo a los padres, a más tardar, el 30 de junio de dicho año. No obstante, si el estudiante falta a la escuela tres días o más durante el período de evaluación, no se aplica la fecha límite del 30 de junio, sino que se aplica el plazo general de 45 días lectivos más prórrogas por ausencias

de tres días o más.

Al completar la evaluación, el distrito o la escuela autónoma deben proporcionar a los padres una copia del informe de evaluación en forma gratuita.

Hay disponible información adicional sobre educación especial del distrito o la escuela autónoma en el documento complementario titulado *Guía para padres sobre el proceso de admisión, revisión y retiro*.

Persona de contacto: Mrs. Sarah Chumbley

Número de teléfono: 361-584-3571 Ext.558

Remisiones de la Sección 504:

Cada distrito escolar o escuela autónoma debe tener estándares y procedimientos en vigor para la evaluación y colocación de estudiantes en el programa de la Sección 504 del distrito o la escuela autónoma. Además, los distritos y las escuelas autónoma deben implementar un sistema de salvaguardas procesales que incluya una notificación, una oportunidad para que los padres o tutores examinen los registros relevantes, una audiencia imparcial en la que puedan participar los padres o tutores y en la que haya representación por parte de un abogado, y un procedimiento de revisión.

Persona de contacto para las remisiones de la Sección 504:
